

Universal Joint Application Guide

Passenger & 4WD Applications - November 2005

MAKE and MODEL	YEAR	PART NO.	FITMENT	NOTES / SUGGESTIONS
----------------	------	----------	---------	---------------------

KEY

* Note: Because of the large range of gearbox and differential combinations universal joint dimensions must be given to ensure correct fitment.

** Note: Some vehicles are fitted with staked type universaljoints that are non-replaceable
Please contact PAJA Automotive to arrange repair.

*** Note: Due to the large number of engine and model changes, universal joint dimensions may be needed to ensure correct fitment.

DAIHATSU

Cab Van (Including Hi Jet)				
S38, S40, S60, S65, S70	1972 - 1984	K5A510	All
